Relocated from russia in 2021. Residence permit holder, registered sole proprietor (ФОП). Glory to Ukraine!

SUMMARY

Senior Full-Stack Engineer with 20+ years of experience in complex B2B systems. Specializing in legacy modernization, cloud migrations, microservices, and high-load architectures. Led technical modernization of products directly impacting revenue and business scaling. Working with AWS, Cloudflare, Laravel, Node.js, React, Flutter.

EXPERIENCE

Senior Full-Stack Developer — BetaCompany

Sep 2020 – Dec 2025

- ▶ Led full modernization of legacy PHP system with several admin panels, transitioning from monolith to modular architecture, reducing technical debt
- ▶ Architected migration to microservices (AWS Lambda, Cloudflare Workers)
- ▶ Adopted Flutter for cross-platform development → 60% less dev time
- ▶ Built frontend ecosystem (Next.js, React)
- ▶ Ensured stable operation of high-load system

Full-Stack Developer — SkyComputing

Jun 2018 – Oct 2020

- ▶ Built complete fintech platform from ground up as sole full-stack developer: virtual funding systems, automated trading strategy execution, and real-time financial flow monitoring with multi-currency support
- ▶ Architected comprehensive B2B partner ecosystem: white-label solutions, partner portals with customizable dashboards, and API integrations for external strategy providers
- ▶ Thrived in high-pressure startup environment: delivered production-ready features on aggressive timelines while maintaining code quality and security standards

Analyst / Developer — Iceberg Sports Analytics

Jan 2016 – Jun 2018

- ▶ Contributed to proprietary video analysis system for professional hockey as part of engineering team: worked on automated game decoding pipeline that transformed raw footage into coaching insights
- ▶ Gained deep expertise in sports analytics domain: real-time statistics processing, video analysis workflows, and data visualization for professional coaching applications

Web Developer — Freelance

2012 – 2016

- ▶ Delivered 100+ web projects across e-commerce, corporate sites, and custom CMS solutions: WordPress/WooCommerce for rapid deployment, ModX for complex content requirements, Django for data-driven applications
